BACKGROUND INFORMATION ON VALUE AND QUALITY AWARD TENDER

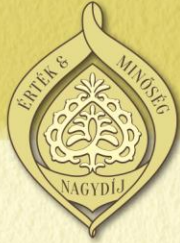

The Value and Quality Award Tender was first issued and implemented by DIAMOND Management Office Ltd. in 2018 by coordinating and performing organizational and management duties related to the tender, commissioned by the trademark founders, furthermore by Hajnal Meat Processing Factory Ltd., KÖMI Ltd., Legrand Hungary Electricity Systems CJSC., Poli-Farbe Chemical Industry Ltd., ProfessionCert Engineering Services Ltd. and S.C.SSM & SIU S.R.L. headquartered in in the Transylvanian Mezőcsászás. Priority support is provided to the implementation of the tender as well as to the work of Board of Announcers by the State Secretariat for Nation Policy at the Prime Minister's Office and the Democratic Alliance of Hungarians in Romania. Professional advices are provided by the Hungarian Intellectual Property Office.

History

The Hungarian Quality Product Award Trademark was introduced in 1998 for the recognition of outstanding quality products. After 20 years this was followed by the Value and Quality Award certification trademark which has been representing an outstanding quality based on proven good traditions outside of our borders, at international level as well. One of the owners of Hungarian Value and Quality Award Certification Trademark is identical to the founder of the Hungarian Quality Product Award, while the other owner is the member of the Board of Announcers of Hungarian Quality Product Award. Among the project managers of the Value and Quality Award we can also find supporters and announcers of the Hungarian Quality Product Award.

The Value and Quality Award Trademark embodies and expresses Hungary's recognition and commitment to the values and the certified quality. The honourable title "Value and Quality Award" is the recognition and prize of products, services and economic organizations which are demonstrably committed in their activities towards quality issue giving high priority to the production of jointly and severally high quality goods as well as services. The prize-winners present exemplary models contributing to the development of the economy. The Value and Quality Award is an up-to-date certification trademark being in line with today's challenges by orienting consumers with a clear distinction of outstanding values (goods and services) in the increasingly expanding product range of the globalized market economy.

Mission of the Value and Quality Award Tender System is to recognize the high quality level of the goods and services introduced in tender applications, to promote the production of high quality products being competitive on international markets and the production of goods with high intellectual added value as well as to encourage the development of services. Its further aim is to contribute to the market activity and also to the development of exports of the producers becoming qualified through this competition. In addition to this tasks, its duty is also to provide obvious support to the customers in quality-conscious choice, to contribute to the development and marketing of health conscious and energy-efficient products, to support the activities of enterprises operating in intellectual property-intensive industries and the appearance of high value-added products and services as well as to develop the active quality policy of producers and distributors.

ÉRTÉK ÉS MINŐSÉG NAGYDÍJ PÁLYÁZATI RENDSZER

Any finished product, product line, software produced or distributed in Hungary or in the Carpathian Basin, complying with the goals of the tender according to the main tender categories, moreover any related services can participate in the tender. Furthermore, individual service can also relate to the subject of the tender. If the applicant is not identical with the manufacturer, or with the right holder of the product, software or of services forming the subject of the tender, the entry to the tender needs the manufacturer's/rights holder's agreement. The purity and inviolability of the tendering system is ensured by an objective requirement system, and the evaluation of an impartial and independent expert body. The use of the trademark awarded is regularly controlled by the announcers of the tender, thereby guaranteeing the safety and the continuous quality standards towards consumers and consumers.

The tender evaluation runs in several rounds. The tenders are evaluated by a professional jury invited by the Announcers on the basis of the submitted documentation. The jury's work is assisted by other specialists as well invited by the Board of Announcers, who will draw up a written report. The invited jury members and specialists will sign a declaration of incompatibility. The list of the jury members and invited specialists is not public till the day of the award ceremony in order to ensure the fairness and clean procedure of the tender. The Declarations of Incompatibility are forming part of the tender procedure documents.

Upon evaluation the jury will take the followings into account:

- Content and aesthetic wholeness of the tender documentation;
- Safety, adequacy, quality, innovative nature, marketability, economic utility, export strength of the product/product line and services submitted to the tender;
- Application of energy saving, environment friendly solutions, advantages offered to the consumers;
- Certificate or expertise issued by a third party (certification body) proving the product adequacy;
- Experts' opinion;
- Experiences of tests performed by qualified and accredited laboratories;

- Application of quality management system (e.g. ISO, or HACCP in case of foods);
- Intellectual property protection awareness;
- Legal rules for placing on the market
- Prizes and certification trademarks previously awarded;
- Additional voluntary benefits offered to the consumers;
- Credibility of financial data included in the Application Form;

ÉRTEK ÉS MINŐSÉG NAGYDÍJ PÁLYÁZATI RENDSZER

- Main relevant official complaints, measures, disputes being in progress;
- Creative ideas, unusual and innovative, future-oriented solutions.

The honourable title “Value and Quality Award”

Based on the decision of the Board of Announcers the tenders evaluated the most outstanding will receive the title of the Value and Quality Award, and along with this the right to use the trademark free of charge for one year.

Hajnal Meat Processing Factory Ltd.

Hajnal Meat Processing Factory Ltd. is a Hungarian-owned company in 100%. The factory was inherited from father to son and grandchild. Nowadays the third generation has already overseen the activity of the company. It is located in Kisalföld, 8 km from Győr, in an industrial park. They are processing Hungarian half-pigs, the cut meat is offered to their customers in their stores. At the same time they are producing meat products as well, which are also sold in multinational sales networks outside their

ÉRTÉK ÉS MINŐSÉG NAGYDÍJ PÁLYÁZATI RENDSZER

stores. The philosophy of Hajnal Meat Processing Factory Ltd. is quality-oriented and tradition-conscious. They are producing Hungarian products under the motto "from our family to the table of your family"!

"Tradition is not to preserve the ashes but to pass the flame!" (Tamás Morus)

KÖMI Ltd.

KÖMI Traffic Engineering Bureau, Engineering, Environmental, Water Management Services Ltd. was established by private individuals with the principle of high level engineering services, quality control and quality assurance. The colleagues have technical supervisor, expert and responsible technical manager licenses in the fields of civil engineering and traffic construction. Most of them are in the designers register and all of them are members of the Hungarian Chamber of Engineers.

Legrand Hungary Electricity Systems CJSC

Legrand and its legal predecessors have been in the Hungarian market for nearly 100 years. It designs, manufactures and sells electrical installation materials. The multinational company, Legrand Group, is a world leader in classical electrical installation and low voltage electrical installation products on all five continents. The company sells its products in 180 countries of the world, employs 35,000 people worldwide. The Legrand Group is committed to eco-development alongside sustainable development, which aims to define the environmental indicators of new products and to reduce our Eco Footprint. Legrand's principles include the commitment to high quality, creativity and the quality-conscious guiding of customers. Starting with the production of traditional switches, Legrand is now a good example of how to harmonize the value and quality in the production of nowadays complete systems, IoT devices and smart homes. Tradition and innovation which are integrated by Hungarian knowledge and labour force with the long-term sustainable development.

Poli-Farbe Chemical Industry Ltd.

Poly-Farbe Chemical Industry Ltd. is one of the Hungarian leading paint and plaster factories being in 100 percent Hungarian-owned company. The initial size and capacity of the company is well illustrated by the fact that in the first year of their activity, less than 20 tonnes of paint were produced and sold. Since then, this number has been increasing continuously every year. In 2017 they produced and traded slightly more than 44,000 tons of paint, thus their price income exceeded 11 billion forints. In 2014, there was an increase in foreign trade as well, exports accounted for about 6.5 percent of total turnover. Today the company supplies paints to neighbouring countries, including Austria, Romania, Serbia, Slovakia and Slovenia. Poli-Farbe, employing nearly 280 people, invested billions of HUF into developments during its activity of 25 years. Not only in Bócsa, but also in the surrounding settlements,

ÉRTÉK ÉS MINŐSÉG NAGYDÍJ PÁLYÁZATI RENDSZER

the company provides employment to many people thus ensuring their livelihoods as well. The year 2017 was a milestone in the company's history. A new unit of factory equipped with robotics technology and a 21st century production line was built by investing more than one billion forints. With these new capacities they can increase their export activity.

ProfessionCert Co. Ltd.

ProfessionCert Co. Ltd. is a Hungarian-owned company in 100% with head office in Budapest. Their main activities: independent technical and engineering inspections, testing services, expertise, certification and process development in Hungary and beyond our borders as well. The employees of the company have professional experience of several decades covering a wide range of different fields of expertise. It is a priority for ProfessionCert to emphasize the safety and quality of products / services, and to increase their competitiveness. Therefore, the promotion of the Value and Quality Award Tendering System is considered by them as a task of high priority.

S.C. SSM & SIU S.R.L. (Romania)

The S.C. SSM & SIU S.R.L. is a Transylvanian company dealing with labour safety. The owners founded this fast-growing company in 2008 with the aim to provide their partners with an external, accredited service combining their expertise and social commitment by means of which it is possible to perform a safe, harmonious, productive work not endangering human life. With its work safety activity of outstanding quality, the company belongs to the few who are providing a permanent full service to the partners. By 2018, the company is in permanent contractual relationship with more than 650 companies. In 2012 the company started its agricultural activity as well with walnut plantation and cultivation of berry fruits, by exploiting the geographic location of the settlements, the productive capacity and climatic conditions of the land. Today they are farming already on 5 hectares of land, their products are purchased by local users. Product distribution across the EU will start soon.
