Their main objective is to produce herbal products whose development is guided by the principles of maintaining health, preventing adverse processes, and applying a holistic approach (considering the body as a single entity). Nowadays, it has become important to combine herbs with other active ingredients, where appropriate, to offer effective solutions, taking into account the latest research results, as health is a unit. The knowledge base of herbs dating back thousands of years, used in the spirit of today, paying particular attention to constant, high quality - this is what the herbal preparations of Dr. Chen Patika offer with a favourable price-performance ratio.</p>	2021.
